## READ CAREFULLY BEFORE ORDERING

All retail orders amounting to \$2.00 or over will be sent PREPAID to any point in the United States. On orders of less than \$2.00 please add 25¢ extra for postage and packing. Each order must be accompanied by remittance in full, or a 25% deposit, the balance before shipment or shipment can be made C.O.D. for the balance.

If you wish to order part from the Retail List, part from the Whole sale List, we will send the order transportation collect and will include extras or over-count to make up for the transportation on the retail items. On wholesale orders which are not prepaid let us send them C.O.D. for the postage or express collect, but no C.O.D. for the order itself. We do not ship C.O.D. for the bulbs without a deposit.

It is our policy to fill all orders with only healthy bulbs, true to name, and will cheerfully refund the purchase price on any order found unsatisfactory upon arrival, and promptly returned; but we do not guarantee satisfactory growth (due to the many new chemical dips and spray material being used by uninformed growers) Nor will we be responsible for any crop losses. All orders are placed with the above conditions accepted by the purchaser. All orders are accepted subject to stock on hand and subject to prior sales.

For top performance Large size bulbs as a rule are best. However, most varieties will give top quality spikes from the Medium size bulbs (3 and 4) but will be anywhere from a week or 10 days later in blooming. The smaller size (5 and 6) will give you very good bloom if planted early. Most of the cut flowers on the fall market, late Sept. are all from number 5 and 6 bulbs.

Where varieties are listed 10 for 30¢, or 10 for 30¢, etc. 5 bulbs may be purchased at the same rate ie; 5 for 40¢ or 5 for 15¢, etc. No item for less than 15¢ though, please. Where varieties list 2 for 25¢ or 3 for 30¢ etc. that is just what it means. Please do not split these items.

Opens up to eight on a good stretchy spike with fine facing. Has won many awards on the show table. Large 2 for 30¢; 10 for 1.10; Medium 3 for 30¢; 10 for 80¢ Small 10 for 50¢; Bulblets 20 for 30¢; 100 for 1.25.

**CONNIE G.:** We grew this variety last summer but just as it started to open rains which lasted for 10 days and nights severed all chances of evaluating it's performance in our planting. Inasmuch as all five bulb tried to bloom at the same time we feel that when it comes into the cut flower stage one will not have to shag all up and down a row to get a dozen spikes. Connie G. is a cream or light yellow with a golden hue in the throat. Grows to a height of 60 inches with 8 to 10 - 5½ inch florets open on a 30 inch flower head with 20 - 22 buds. Large each 1.00; Medium each 60¢; 3 for 1.50; Small each 40¢; 3 for 1.00 Bulblets 10 for 1.00; 100 for 7.00

**TOPFLITE:** makes a beautiful clear rose pink flower. Opens 6 - 8 florets on a good spike. This variety is a puzzler. Foliage looks like it was badly diseased. One grower says "it ripens off early" It certainly does something which is not natural. But in spite of all it's homeliness as a growing plant it certainly can give off with very beautiful spikes. This is our opinion after growing for 2 years. Large each 3.00 Small each 1.00; Bulblets 10 for 2.40.

**TRALEE:** A silvery rose which looked better after the second year of growing with us. Will open 7 - 8 florets on a good spike. Blooms early. Large each 2.00; Medium each 1.50; Small each 1.00; Bblts. 10 for 2.00

**TRUELOVE:** Good early light pink. Florets are large and very distinctive Large each 20¢; 10 for 1.60; Med. 2 for 25¢; 10 for 1.00; Small 10 for 50¢ Bulblets 35 for 50¢.

**VALERIA:** Good light red. A wonderful cut flower. Older strains of this variety did not do very well in germinating. However we have an improved strain of this variety which propagates and germinates much more readily. Large 3 for 30¢; 10 for 80¢; Medium 10 for 50¢.

**VAN GOLD:** Early deep yellow. Opens 6 - 7 on a nice whippy spike. Bblt, production and germination good. Large 2 for 35¢; 10 for 1.40; Medium 2 for 25¢; 10 for 1.00; Small 10 for 60¢; Bblts. 25 for 30¢.

**WAX MODEL:** A good clean white with thin lavender throat spears. Tall grower with 5 - 6 open. Very good propagator and bblts. germinate well Large each 1.00; 3 for 2.40; medium each 75¢; 3 for 1.80; Small each 50¢ 3 for 1.20; Bulblets 10 for 1.00; 100 for 8.00.

**WHITE CHALLENGE:** Called white with blush of soft rose. 7 - 9 open on a good spike. Wet weather did not permit us to evaluate this variety in our planting last season. This variety has a fine show record in the middle west. Small each 1.50; Bulblets 10 for 2.00.

## 1949 RETAIL PRICE LIST

**WHITE GODDESS:** An early large flowering white with a cream throat on a good spike. Ruffled florets with good texture. Good increaser and excellent growth from bulblets. Large each 1.50; Medium each 1.00 Small each 60¢; Bulblets 10 for 1.20; 100 for 8.00.

**YELLOW PERIL:** Here is a yellow which we started building up stock of again after 2 years of not growing. This is no doubt about as fine a yellow for color as one can imagine. I have never seen any yellow as deep in color as this. It's one fault is no stretch to the flower head. It is not a show glad. It cannot be beat for health, propagation or germination. Here is one for the women folks to chop up and show in grand style in arrangements. Large or Medium 25¢ each; 10 for 2.00
